 [shahabasusmanak@gmail.com](mailto:shahabasusmanak@gmail.com)

 Kannur / Kerala, India

 GitHub: [github.com/Shahabas4k](https://github.com/Shahabas4k)

 LinkedIn: [linkedin.com/in/shahabas-ak](https://www.linkedin.com/in/shahabas-ak)

Career Target:

Penetration Tester (Intern/Junior)

Security Operations Center (SOC) Analyst

Cyber Security Intern

Entry-level Security Role

Seeking **internship or entry-level position** in cybersecurity where I can leverage my BCA background, current cyber security training, and strong dedication to protect digital assets, monitor threats, and contribute to security assessments.

## Professional Summary

Hardworking and dedicated **BCA graduate (2022-2025)** currently pursuing **Cyber Security** program (expected 2026). Proven ability to collaborate in team projects, evidenced by a group project certificate for a real-world booking application. Passionate about offensive security, vulnerability assessment, and security monitoring. Eager to start a career as a **Penetration Tester, SOC Analyst, or Cyber Security Intern** to apply analytical skills, continuous learning mindset, and technical knowledge in dynamic environments.

## Education

**Bachelor of Computer Applications (BCA)**

2022 – 2025

JDT Arts and Science College, Kerala | Affiliated to University of Calicut

- Graduated with core knowledge in programming, computer networks, database systems, and information security fundamentals.
- Academic focus: Software Development, OS, Web Technologies, and Security Basics.
- Successfully completed BCA degree with commitment and teamwork orientation.

**Cyber Security Program (In Progress)**

2025 – 2026

Specialized training in Offensive Security, Network Defense, & SOC Essentials

- Core modules: Ethical Hacking, Penetration Testing Methodologies, SIEM basics, Incident Response, Cryptography.
- Hands-on labs: Kali Linux, Nmap, Wireshark, Metasploit introduction, and threat hunting scenarios.
- Expected completion: 2026 – building practical skills for junior security roles.

## Certifications & Recognitions

**BCA Degree Certificate**

2025

Official Bachelor of Computer Applications certificate from JDT Arts and Science College, confirming graduation.

**Team Group Project Certificate – JDT.ALLN.1**

2024/2025

Recognized for successful collaboration and contribution to the **Hall, Turf, Convention Centre Booking App "JDT.ALLN.1"** – a comprehensive group project demonstrating full-stack planning, team coordination, and delivery. Certificate awarded for exceptional teamwork and problem-solving.

## Relevant Projects & Experience

**Network Vulnerability Assessment Lab**

2025

- Designed a home lab environment using VirtualBox (Kali Linux, Metasploitable) to practice scanning and enumeration.
- Performed vulnerability scanning using Nmap and OpenVAS; documented findings and basic remediation steps.
- Developed foundational skills for penetration testing and SOC monitoring roles.

**SIEM Simulation & Log Analysis (Splunk / ELK)**

2025

- Simulated security event monitoring with free Splunk tier: ingested sample logs, created alerts for failed logins.
- Analyzed network traffic patterns and identified potential brute-force attempts.
- Strengthened understanding of SOC analyst day-to-day tasks.

**Python Scripting for Security Automation**

2024-2025

- Developed small scripts for port scanning, password strength checker, and log file parser.
- Shared code on GitHub ([github.com/Shahabas4k](https://github.com/Shahabas4k)) to showcase automation and security tooling interest.

## Core Skills & Competencies

Cybersecurity & Technical Skills:

Penetration Testing (Beginner)

Nmap / Zenmap

Wireshark

Kali Linux

Metasploit (basic)

SIEM Concepts (Splunk)

Network Security

Python (Scripting)

Linux Administration

OWASP Top 10 awareness

Incident Response basics

★ Soft Skills (Hardwork & Dedication):

Hardworking & Dedicated

Team Collaboration

Analytical Thinking

Self-Learning

Problem Solving

Time Management

Attention to Detail

## Portfolio & Online Presence

- GitHub:** [github.com/Shahabas4k](https://github.com/Shahabas4k) – contains security scripts, learning projects, and CTF writeups (growing).
- LinkedIn:** [www.linkedin.com/in/shahabas-ak](https://www.linkedin.com/in/shahabas-ak) – currently being updated; actively building professional network.
- TryHackMe / Hack The Box:** Actively solving rooms to improve practical pentesting skills (beginner to intermediate).

## Languages & Additional

- Languages:** English (Professional), Malayalam (Native), Hindi (Conversational).
- Availability:** Open for full-time internship, entry-level SOC, junior pentester, or security analyst roles.
- Certifications pursuing:** CompTIA Security+ (planned), eJPT (roadmap).
- Work ethic:** Disciplined, quick learner, and thrives in team environments with a focus on security excellence.
